

May 15, 2008 - Rejuvenation

Ah, the feeling of Spring. How rejuvenating the season can be with its fresh flowers, greenery and more sunlight. It's like a breath of fresh air, literally. Take your cue from Spring and rejuvenate your look by adding a little light to your locks.

You can even achieve new, sexy highlights right at home. Denis DaSilva, co-owner of [Devachan Salon and Departure Lounge](#) and co-creator of DevaConcepts, proudly announces the launch of [HC Color Fantasies](#). This system creates professional highlights by using the patented "Preciso" applicator tool. This means precise highlights (the professional kind).

The HC Color Fantasies Home Colorist System includes an easy-to-follow instructional DVD, the "Preciso" highlighting tool, a color-locking cleanser and conditioner, color solution, color cream and bleach booster, protective cape and gloves, hair clips and a pintail comb. Talk about a bang for your buck.

For a sexy new do, purchase the kit at [Store.HCColor.com](#). Then, simply step into the sunshine and show off those golden highlights.
